FRONT-END DEVELOPER | FULL-STACK DEVELOPMENT | WEB DEVELOPMENT

Versatile, results-driven professional with a proven track record of delivering high-quality, responsive, and user-friendly websites and applications. With a deep understanding of various front-end frameworks, I have the ability to translate complex designs and requirements into clean, efficient, and scalable code. My skills also extend to Single Page Applications (SPA), responsive design, cross-browser compatibility, and performance optimization, ensuring that every project I work on meets the highest standards of quality and usability. I am also well-versed in version control systems such as Git and have experience collaborating with teams using Agile methodologies. Seeking to leverage educational background, technical expertise, and solution-oriented spirit to fulfill a role that facilitates the front-end development needs for a company and/or organization to help measure success.

Technical Experience (Proficient): JavaScript / TypeScript / Next.js / React / Redux / React Hooks / HTML / CSS / SCSS / Tailwind CSS / Bootstrap / Material UI / Postman / Git / NPM

Familiar: Node.js, Express.js, MongoDB, MySQL, AWS, DynamoDB, Firebase, Figma, Styled Components
